

Georgia Prentice – Junior Consultant

Expertise

Market research and analysis, project support, report writing, property development and planning, compliance.

About

Georgia originally joined Altair as a Graduate Consultant, with an emphasis on property in April 2019. She is currently experiencing a wide range of placements as she gains full exposure to the development process.

Georgia has most recently been carrying out procurement services for a high profile regeneration scheme in London. She has also been part of a team who have helped define and set up the digital record process to ensure compliance with legislation emerging from the Hackitt Review recommendations at various housing associations. Georgia has contributed to research and analysis on several Financial Viability Assessments, and supporting development management services at a local authority.

Altair Assignments

Recent projects that Georgia has been involved in include:

- Defining and setting up the digital record process to ensure compliance with legislation emerging from the Hackitt Review recommendations at Peabody
- Peabody digital record
- Assisting in the preparation of Financial Viability Assessments for HAs and LAs.
- Development management assistance for LBHF
