

Kate Perham-Marchant, Graduate Consultant (she/her)

Expertise

Customer Service and Communication – through various part time jobs (alongside school and university studies).

Qualitative Research, Analysis & Write-up (skills gained from writing a university level dissertation)

About

Kate's dissertation research focussed on exploring the role of the community within the UK's planning system using a local project as a case study. Conducting this research and analysing findings ultimately fuelled Kate's desire to work for a socially-minded company like Altair, which works to implement positive changes for the community.

Recent Altair Assignments

Started in August 2021 but looking forward to working across a broad range of projects in order to gain exposure to the industry.

Background

BA Geography (Hons) – First Class from the University of Birmingham
