

Will Morley, Junior Consultant

Expertise

Research and data analysis, client support/engagement, policy development, report writing, project management.

About

Will is a PRINCE2 qualified project manager and has been part of Altair's fast-track learning and development graduate programme since September 2019. Since joining Altair, Will has supported the delivery of strategy & change, governance, value for money, recruitment and international projects for a range of clients including housing associations, local authorities, international finance institutions and non-traditional providers.

Most recently, Will has had experience project managing a significant change management programme that provided a sustainable, resilient and customer focused repairs service to drive improved customer satisfaction. Will has also recently provided research, analysis and project support for a consultation across the Irish Social Housing sector to review a regulatory standard.

Will's interest is in the housing sector. His degree programme developed his understanding of the relationships within the housing sector and their impact on the wider political landscape.

Altair Assignments

Recent projects that Will has been involved in include:

- PMO support on the implementation of a transformation programme for a housing association
- Support on the implementation of a new responsive repairs contract
- Research and support for a review of an Irish social housing regulatory standard
- Research to support the identification of finance options for affordable housing in Malaysia
- Research and market analysis to support the identification of housing investment opportunities in Africa for a UK based investor
- Governance and board effectiveness reviews
- Regulatory compliance reviews

- Support with regulatory engagement
- Organisation and structure reviews
- Policy writing
