

Laurie Stroud, Senior Development Consultant

About

Laurie has experience in managing diverse asset portfolios including the delivery of strategies from acquisition and development, through to disposal. He also developed and delivered cross sector asset strategies, contract managed response maintenance services, and contributed to the modernisation of diverse estate assets – including the replacement and redesign of purpose build care facilities.

Recent Altair Assignments

- Delivery of Recladding services
- Review of Responsive Maintenance Services
- Development and Advice to various clients on Health and Safety compliance
