

Ellie Dickens, Graduate Consultant

Expertise

Business development, client engagement, presenting analysis to clients.

About

Ellie is a PRINCE2® qualified Project Manager. with an emphasis on property consultancy workstreams. Ellie is currently working across a wide range of projects as she gains full exposure to the development process as well as the sustainability services.

Before working at Altair, Ellie has gained extensive experience within customer centric environments, where key responsibilities have included managing and delivering a range of services to customer databases.

Ellie's degree in International Business Management sparked her interest for consultancy, providing her with a strong base of understanding for the industry.

Away from Altair Ellie enjoys participating in most team sports, including netball and rounders.

Altair Assignments

- Falkirk Council- Supporting the Altair team in producing a carbon budgeting framework for the Council's goal of achieving net zero by 2030.
- Sempra Homes- Assisting to deliver schemes of various scales throughout the development process, including the design and planning stages and creating the scheme's financial appraisals.
- Preparing Financial Viability Assessments for HAs and LAs.
- Site identification and reports for potential development opportunities.
