Mhari Byrne, Associate Principal Consultant

Expertise

Providing strategic leadership in Programme Management Portfolio, developing, and embedding new operating models, whilst encompassing responsibility for delivery of Digital Transformation.

About

Mhari has successfully undertaken a number of high-profile, multi-million-pound assignments, excelling in the delivery of a broad range of complex solutions in high pressure, commercially driven environments.

She has acted as lead for many Digital Transformation Programmes for businesses through innovation of technology in delivering the new operating models.

Mhari developed an engagement strategy that ran alongside the technology programme, supporting culture change and learning & development projects. This was delivered across multiple national sites to employees and customers.
